Was forced to buy it my the author because he is my instructor. They sell at the school book store for 55-80 dollars. It does not correlate with his labs0 of 0 people found the following review helpful. Great shipping timeBy Jamie PraterJust as described. Great shipping time!0 of 0 people found the following review helpful. doesnt alignBy oGREWIFEThis book did not align with any other material that I was using for the class so it made me more confused instead of helping.

This atlas was developed to support all Anatomy Physiology titles. For use with the human anatomy course or any AP lab, this comprehensive collection includes hundreds of histology photos and cadaver dissections.

About the Author Chris Creek received his Bachelor of Fine Arts from Brigham Young University. He is currently president of Zygote Media Group, Inc. (Utah), a company that builds 3-D computer-generated anatomy and figure models for multimedia titles. He has been a freelance medical illustrator for more than 10 years and has illustrated numerous college-level textbooks, including several WCB titles.
