It's good for a quick reference or something to put on your desk at the office. Other than that, I wouldn't use it for study review or 'flash card' review, since it's not very thorough. but for the price, it's what you expect. 1 of 1 people found the following review helpful. Impressive set of flashcards By Sewing Fool Purchased two sets of these for my sister and son who are going to be taking AP classes soon. Let me tell you THIS box of cards is impressive! My sister thought I spent over \$50 bucks for them. Winning. 1 of 1 people found the following review helpful. Excellent cards, has not only the bones By Betty A. Buck Excellent

cards, has not only the bones, also muscles, and nerves. I purchased them for my granddaughter. Cards were above my expectations.
