**Robert Klein, James C. MacKenzie : Anatomy, Histology Cell Biology: PreTest Self-Assessment and Review** before purchasing it in order to gage whether or not it would be worth my time, and all praised Anatomy, Histology Cell Biology: PreTest Self-Assessment and Review:

0 of 1 people found the following review helpful. Good Book - Good prep for Step 1 By Neal Anson This pre-test book was the only text I studied for cell biology in step one. It helped me out a lot and I did very well on that section of the exam. I recommend this book.

Gives medical students 500 questions, answers, and explanations to prepare for the histology and cell biology sections of the USMLE Step 1. The new edition includes many new questions in the two-step clinical format to simulate the USMLE Step 1.

From the Back Cover \* 500 USMLE-type questions, answers explanations \* High-yield facts reinforce key concepts \* Targets what you really need to know \* Student-tested and reviewed PreTest is the medical student's most dynamic weapon for mastering the USMLE Step 1. \* Designed to simulate the exam \* ed by recent examinees \* Mimics the real exam, question by question PreTest is the closest you can get to seeing the test before you take it. This one-of-a-kind test prep guide helps you: \* Get to know material on course exams and the USMLE Step 1 \* Practice with 500 clinically oriented multiple-choice questions \* key facts for exam success \* Build confidence, skills, and knowledge There are plenty of answers out there. But only PreTest delivers USMLE-type questions, in USMLE format. Open this PreTest for: \* 500 board-type questions \* High-yield facts for board and course review \* Referenced answers with concise explanations Great for histology and cell biology course review and exams, too! This Histology and Cell Biology PreTest asks the right questions so you'll know the right answers. Open it and start learning what's on the test. "I recommend this PreTest to everyone I know taking the USMLE Step 1. The practice it gave me with reasoning questions was particularly helpful." --a medical student who recently passed the USMLE Step 1 About the Author Robert M. Klein, PhD is a Professor of Anatomy and Cell Biology in the Department of Anatomy and Cell Biology and the University of Kansas School of Medicine in Kansas City, Kansas. His our department has been recognized by first year medical students as the best basic science department for instruction for 1994-95, 1995-96, 1996-97, and 1998-99. James C. MacKenzie, PhD is Associate Professor in the Department of Anatomy at Howard University College of Medicine in Washington, D.C. The major emphasis of HUMC's mission is preparing students to deliver high quality health care in medically under-served communities.
