**Robert Klein, George C. Enders PhD : Anatomy, Histology, Cell Biology: PreTest Self-Assessment Review, Fourth Edition** before purchasing it in order to gage whether or not it would be worth my time, and all praised Anatomy, Histology, Cell Biology: PreTest Self-Assessment Review, Fourth Edition:

0 of 0 people found the following review helpful. Five Stars By Ashley The book really prepared me for my board

exam!0 of 0 people found the following review helpful. Eh, a disappointmentBy eatleavesandshootsIt's not as helpful as I would have imagined. It does provide questions, but they don't seem to match the question style of step one. I'm assuming it's because that's oriented towards pathology, not histology. It is a review book and that's good.2 of 2 people found the following review helpful. great for studyingBy Andrewi ordered this book for my M1 histo/cell bio course and it was a great review source. The question style in there was great for my NBME mini-board. It made sure I knew the questions at a more advanced level than the mini-board, so when I walked into the mini-board, it was much easier.

PreTest is the closest you can get to seeing the USMLE Step 1 before you take it500 USMLE-type questions and answers! "This edition of PreTest is full of extremely high-yield information in a presentation that is logical and effective. The questions and explanations are invaluable, and the HY tables and figures make it easy to review important material efficiently." -- Gustaf Van Acker III, Fourth Year MD/PhD Candidate, University of Kansas School of Medicine "This book was an excellent refresher for anyone looking to review information for either their final course exam or for the USMLE Step 1." -- Ben Chidester, Second Year Medical Student, Eastern Virginia Medical School Great for course review and the USMLE Step 1, Anatomy, Histology, Cell Biology: PreTest asks the right questions so youll know the right answers. Youll find 500 clinical-vignette style questions and answers along with complete explanations of correct and incorrect answers. The content has been reviewed by students who recently passed their exams, so you know you are studying the most relevant and up-to-date material possible. No other study guide targets what you really need to know in order to pass like PreTest! Content that covers all the must-know topics: High-Yield Facts, Embryology: Early and General, Cell Biology: Membranes, Cell Biology: Cytoplasm, Cell Biology: Intracellular Trafficking, Cell Biology: Nucleus, Epithelium, Connective Tissues, Specialized Connective Tissues: Bones and Cartilage, Muscle and Cell Motility, Nervous System, Cardiovascular System, Blood and Bone Marrow, Lymphoid System and Cellular Immunology, Respiratory System, Integumentary System, Gastrointestinal Tract and Glands, Endocrine Glands, Reproductive System, Urinary System, Eye and Ear, Head and Neck Thorax, Abdomen, Pelvis, Extremities and Spine
