**Donald G. Serafin MD : Atlas of Microsurgical Composite Tissue Transplantation, 1e** before purchasing it in order to gage whether or not it would be worth my time, and all praised Atlas of Microsurgical Composite Tissue Transplantation, 1e:

Provides a comprehensive discussion of free flap surgery. The author presents an in-depth, technique-oriented review of each flap, including indications, dimensions, vascular and neural anatomy, and dissection. Covers cutaneous, musculocutaneous, septocutaneous, fasciocutaneous and fascial flaps. Each chapter includes a review by selected experts for a unique perspective and alternate surgical techniques.
