**Judith Goodenough, Betty A. McGuire : Biology of Humans: Concepts, Applications, and Issues, Books a la Carte Plus MasteringBiology with Pearson eText -- Access Card Package (6th Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Biology of Humans: Concepts, Applications, and Issues, Books a la Carte Plus MasteringBiology with Pearson eText -- Access Card Package (6th Edition):

0 of 0 people found the following review helpful. ... book I needed for school and was brand new like I wantedBy FrancisGot the book I needed for school and was brand new like I wanted. Will definitely do business again.0 of 0 people found the following review helpful. Five StarsBy Swirbul L.excellent service and product0 of 0 people found the following review helpful. Actually received a different edition, but still okay.By John P.I ordered this for my

human biology class. When it arrived, it was actually the 2nd edition. I was too lazy to send it back, so I dealt with it. The book itself is good with details and pictures, and there's only little difference between the 2nd and 3rd edition.

NOTE: This edition features the same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value; this format costs significantly less than a new textbook. Before purchasing, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a Course ID, provided by your instructor, to register for and use Pearson's MyLab Mastering products. For courses in non-majors biology. This package includes MasteringBiology Helps students learn the concepts and applications of human biology using relevant topics and realistic scenarios. Known for its unique Special Topic chapters and emphasis on everyday health concerns, the Sixth Edition of *Biology of Humans: Concepts, Applications, and Issues* continues to personalize the study of human biology using a conversational writing style, vibrant, easy-to-follow illustrations, abundant applications, and a new emphasis on using everyday science literacy skills. The authors provide a practical, friendly introduction to the study of the human body, preparing students to navigate today's rapidly expanding and shifting world of health information. Each chapter now features brand-new Consider This Case exercises and Finding and Evaluating Information activities that challenge students to think critically and apply their knowledge to solve real-world cases. Along with scientific updates and content improvements throughout the text, The Sixth Edition also includes a new Special Topic chapter on the Obesity Epidemic. Personalize Learning with MasteringBiology MasteringBiology is an online homework, tutorial, and assessment product designed to improve results by helping students quickly master concepts. Students benefit from self-paced tutorials that feature immediate wrong-answer feedback and hints that emulate the office-hour experience to help keep students on track. With a wide range of interactive, engaging, and assignable activities, students are encouraged to actively learn and retain tough course concepts.
