Mr. Benjamin R. Krueger, Ms. Brooke Young, Ms. Roxie Brunsting : Biomimicry: Nature as Designer before purchasing it in order to gage whether or not it would be worth my time, and all praised Biomimicry: Nature as Designer:

Inside, you will find pages with uniquely detailed descriptions of product prototype ideas based on the existing principals of nature, known as biomimicry. Biomimicry is the process of copying an adaptation from nature, and creating a product or process based off of the adaptation. We have created products that can make the world a better place, ranging from cars to water pumps to inflatable cell phone covers to everything in between. We hope you find inspiration within!
