This new edition has been amended throughout, new sections have been added on ageing and gender and the immune system, and diagrams have been redrawn for improved clarity and consistency of style. Instant Notes in Immunology,

Second Edition provides concise coverage of immunology at an undergraduate level, providing easy access to the core information in the field. The book covers all important areas in immunology in a format which is ideal for learning and rapid revision. Also features MCQs and answers test knowledge and understanding.

If you're looking for an outline of immunology for studying, this book would be a good choice. It is easy to read and hits the high points covered by multiple choice questions on exams. --Doody's Books
