**From Wiley-Interscience : Case Studies in Biometry** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Case Studies in Biometry:

Features 21 case studies that illustrate commonly used approaches to answer scientific questions in such areas as biology, toxicology, clinical medicine, environmental hazards, agriculture, forestry and wildlife. Examples of

statistical methods used in these case studies include linear regression, survival analysis, principle components, design of experiments, resampling and bootstrap. A disk containing the collective data sets will accompany the book.
