Ricki Lewis : Case Workbook for Human Genetics before purchasing it in order to gage whether or not it would be worth my time, and all praised Case Workbook for Human Genetics:

0 of 0 people found the following review helpful. Fun book!By CustomerI am going to medical school next fall and this book made me excited to learn about different genetic abnormalities. The practice problems were fun and I loved the stories.0 of 0 people found the following review helpful. ExcellentBy Julie GI purchased this for a class I am taking. It arrived quickly and in excellent condition. The text is easy to read.2 of 3 people found the following review helpful. Wrong book because of image they hadBy Mademoiselle Co.thought I was getting a good deal because I was overwhelmed at how much the book cost reg. \$140 and ^ so I decided to go on since they had a pic. of the book I needed I didn't think about it twice and bought it...now I have to return it and purchase another let's see how much this joke costs me...-ish they had the workbook image not the textbook image that would've helped alot...
