**Marjorie Kelly Cowan Professor : Combo: Microbiology: A Systems Approach w/ Connect Access Card (Combos - SEM)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Combo: Microbiology: A Systems Approach w/ Connect Access Card (Combos - SEM):

0 of 0 people found the following review helpful. Bad businessBy Jennifer CaseyIt did not come with a learn smart card...came with an ebook card. I didn't need an ebook and a hard cover book. I needed a book and the smart card as advertised. When I returned it I was only refunded for the book. Bad business,0 of 0 people found the following review helpful. Five StarsBy CustomerIt's an excellent additional tool for practice

Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, how they need it, so that your class time is more engaging and effective.Microbiology: A Systems Approach is a microbiology text for non-science/allied health majors with a body

systems approach to the disease chapters. It is known for its engaging writing style, instructional art program and focus on active learning. Its unique organization in the disease chapters presents students with information in the way they would encounter it in a clinical setting, instead of separating disease information by taxonomy. The proven successful digital program including Connect, LearnSmart and SmartBook gives students access to one of the most effective and successful adaptive learning resources available on the market today.

About the Author Kelly Cowan just celebrated her 20th anniversary at Miami University Middletown, an open admissions campus in Ohio. She received her Ph.D. at the University of Louisville, and later worked at the University of Maryland and the University of Groningen in the Netherlands. She specializes in teaching microbiology to nonmajors, and especially to pre-nursing and allied health students. She herself fell in love with microbiology while pursuing an undergraduate degree in dental hygiene. She has made it her personal mission to hear nurses and dental hygienists she encounters in everyday situations exclaim, I loved my microbiology class!
