Nice to just rent book and not have to buy it. Rented for like \$15 where as college want \$300. Great savings and don't have just another book on shelf.0 of 0 people found the following review helpful. Good Textbook, but does not come with Access CodesBy Donald P. WalkerThis is a pretty good textbook that we ordered new. The material seems good, but unlike other new textbooks my daughter needed for her courses, this one did not come with the access codes included. This makes this textbook very expensive when you have to pay an additional \$80 plus more to get the access codes for the course.0 of 0 people found the following review helpful. Well written textbook!By J RedNice study helps, charts, guides, quizzes, summaries and pictures. Its a well thought out textbook. I am learning nutrition and am basically self-taught using this.

Note: Product is only a printed access code and does not include a bookConnect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, how they need it, so that your class time is more engaging and effective.
