Stephen Goldberg : Consciousness Information Meaning (Medmaster Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Consciousness Information Meaning (Medmaster Series):

1 of 1 people found the following review helpful. consciousness,information,and meaning:the origin of the mindBy igor puljicExquisit book for those who want to master basic data from this field.Abundant with humorous comments about serious things . Easy readable,interestingly concipated.

A new theory as to how the mind arises from the physical brain. Profound implications for the issues of consciousness in computers and the relationships of consciousness to quantum physics, evolution, religion, and immortality of the mind.

About the AuthorThe Made Ridiculously Simple Series was founded by Stephen Goldberg. A graduate of the Albert Einstein College of Medicine, he subsequently trained in Neurology, becoming Board Certified in Ophthalmology and Family Medicine. As a faculty member at the University of Miami School of Medicine, both in the Family Medicine and Cell Biology/Anatomy Departments, he has been involved in the education of medical students and residents for the past 25 years. Dr. Goldberg has received the George Paff Award for Teaching Excellence at the University of Miami School of Medicine eleven times since its inception in 1985. He has authored a number of titles in the MedMaster series and has worked with other authors in an editorial capacity. His first book, Clinical Neuroanatomy Made Ridiculously Simple has sold over 300,000 English edition copies.
