By Ajaan Gerendhassa I've had this book for years and would recommend it to anyone who studies I Ching! It would be nice to see a new and expanded version of this sacred test! 0 of 3 people found the following review helpful. Five Stars By Customer Book looks good and arrived in a short

amount of time.

A startling correlation between ancient knowledge and ultra-modern science is explored in DNA and the I Ching.

About the Author Johnson Faa Yan is from the town in China where Chu Hsi, the Sung Dynasty I Ching scholar, lectured and meditated. After receiving his PhD from Kent State University, Dr. Yan did post-doctoral research on computational chemistry of biopolymers at Cornell University. His current interest is, of course, the interpretation of DNA and protein sequences.
