**Fitzgerald-Hayes : DNA Biotechnology by Fitzgerald-Hayes,Molly; Reichsman,Frieda. [2009,3rd Edition.] Hardcover** before purchasing it in order to gage whether or not it would be worth my time, and all praised DNA Biotechnology by Fitzgerald-Hayes,Molly; Reichsman,Frieda. [2009,3rd Edition.] Hardcover:

2 of 2 people found the following review helpful. Quite goodBy BarbaraThe book is very easy to read, enjoyable; isn't dry at all. There are self-check-questions at the end of each chapter. The figures are high quality and illustrative.The only problem is, that at the beginning of the book, the atomic formulas of the nucletid bases are quite full with mistakes.0 of 0 people found the following review helpful. Easy to readBy Petra WarnickI liked this book. It was generic and easy to read. I had already learned much of the information from other text books. It was quick and easy to read.0 of 0 people found the following review helpful. Five StarsBy J. M.Brand new condition thanks
